

# Creative Coding Club

with

SCRATCH

Mondays After School at Dixie

Creative Coding Club is the place to have fun making awesome animation and games while learning computer programming. We use MIT's Scratch platform to create interactive stories, cards, and games. Lessons include coding concepts and are scaled to the student's experience level. Projects are uploaded to an online class gallery, which can be accessed from home. Lesson synopses are emailed to parents after each class.

Two 6-week sessions on Mondays, Grades 2-5  
2:35 – 3:35 pm

Session 1: Sept. 15 - Nov. 3 (no class 10/13, 10/20)

Session 2: Nov. 10 - Dec. 15

Cost: \$200 per session
